God's Road Construction

June 24, 2001

In this vision, I saw road construction. This new road bed was being prepared coming up out of a valley to the top of a hill. There were many vehicles parked about where the road construction had halted before reaching the hill top. Then I saw a two lane highway that ran across the top of the hill that was at ninety degrees to the new road bed. There was a car driving slowly along the two lane road and the occupants were looking down at the new road. **They were discussing what they could do to stop the building of the new road.** The vision ended.

I asked God what the vision meant. There was no immediate response. As I continued to pray, God spoke this "The new road represents what I am doing to close this age. It will be completed and no amount of scheming by man will change, delay or stop it." I thought who is going to stop God when he is driving a 80 ton bulldozer.

Isaiah 14:26-27 **26** *I have a plan for the whole earth, for my mighty power reaches throughout the world. 27 The LORD Almighty has spoken--who can change his plans? When his hand moves, who can stop him?"* (NLT) Added 06-07-02
