Are We Drinking The Living Waters?

July 18, 2001

As I was praying in the spirit this morning a vision came into sight. I saw what looked like a steep river bank and at the bottom was a cement sidewalk. In the vision there was debris being swept up the sidewalk as the bank and the bottom had a slope or tilt. It was not level. Then I heard a voice saying, would it not be less effort to sweep the debris down the slope instead of up the slope. The debris was then swept down the slope. As I looked I saw at the end of the slope was a steep drop off almost straight down. Then I saw what looked like liquid newspaper running down and over the drop off.

I realized that I was no longer praying in the spirit and the vision stopped. I said God please continue the vision and explain what the meaning is. I continued to pray in the spirit. Then the Lord showed me the rest of the vision. At the bottom of the drop off the liquid paper turned into water. As it leveled out and started flowing level again it came upon a big round rock. Part of the water was allowed to run into a large green pasture, only a very small amount. The rest of the water was diverted to the left and down into a large gully and away from the pasture. The vision ended.

The Spirit spoke and said—“as I am poured out from heaven to the churches, they divert the flow away from themselves, except for a very small amount. They want nothing to do with me for they have their own programs and agenda and will not obey my commands.” On December 11, 2001 the Holy Spirit said—“the liquid paper is revelation knowledge being poured out from heaven.”
