In the dream this night, Margaret and I were traveling in California and had stopped at a restaurant. The topic of conversation in the restaurant was an identification card for Americans and they were calling it a green card. There was an area set aside in the restaurant to fill out the card. I saw that after each person filled out the card they were to paint their face green using the paint supplied. I noticed that after each one painted his or her face they changed in their actions or became sick.

Margaret insisted that she wanted one of the cards. She filled out the application and painted her face. She became ill and went to the restroom. I waited for a long time for her to come out of the restroom. I finally asked one of the clerks if she would go to the restroom and check on Margaret. The clerk returned and reported she was still in the restroom. After waiting, I decided to go into the restroom and check on her myself. As I approached the door I was blocked by others with painted faces from entering.

In the confrontation I began to see that the people with the painted faces in the natural looked normal but in the spiritual their faces were in different states of decay. Some were without lips and some were without noses. The length of time dictated their state of decay. They were blocking me from Margaret because they knew I would wash off the paint from her face now that I knew the truth. They wanted all to be changed into their likeness.

I left the restroom area and went back into the lobby of the restaurant. I could see that most all of the people in the restaurant were completely changed. They no longer had evidence of painted faces. By seeing in the in the spiritual they all had been changed into something else due to the

state of decay about their faces. I went outside and waited. Then I made up my mind that I was going to get Margaret out of this situation. I turned around I started back inside. As I started to enter there was a pillar flaming fire appeared that preceded me. The fire took the most direct route to the restrooms which was through walls and not doorways and down the hall. I followed the fire into the restroom and into a hidden room within the restroom finding Margaret. The dream ended.

I asked the Lord what the meaning of the dream was. The Lord showed me this—“Who are we going to serve? If we serve the world and take their identity, we will become like the world in our thinking and our actions. If we enter into the denominational churches and take their identity, we will serve them according to their doctrines becoming like them in our thinking and actions. If we serve Christ taking on his identity, we will become like him in our thinking and actions. By serving Christ in Holy Ghost power, the fire of God will walk before us clearing the way as we do the will of God. Those we serve other than Christ will protect us and their ways attacking any who comes against them.”

I want to serve Christ putting off the old man and putting on the new man in the image of Christ being taught by the Holy Ghost being under God’s protection according to the Word of God. I want to leave the principles of the doctrine of Christ moving forward into perfection and understanding operating in all of the gifts of the Holy Spirit doing the work of Christ and greater works glorifying God and his Kingdom. This cannot begin to happen serving the world or the denominational churches. The world filters out God completely. The denominational churches filter the Word of God to fit their doctrines ignoring the doctrine of Christ when it does not line up with their doctrines.
