March 1, 2002

I record this dream from last night. I was back in Western Kansas making a two way service call. The complaint was that they could not pump gas because they had lost signal from their satellite dish that controlled the pumps. Arriving at the grain elevator, I saw much destruction. The office building was all that was left standing. The concrete granaries were destroyed and all that was left was a hole in the ground. Other people in the dream went directly to the office upon their arrival. I saw a tower site a distance from the destroyed elevator. I went to the tower site. The whole area around the elevator was barren. Then as I looked into the distance, I heard the voices of different people. These were voices I have heard in the past on the radios systems I had owned and serviced.

Later, I was back at the elevator with some kind of a water or septic tank truck. As I tried to unload the truck into an underground pipe, the drain hoses kept plugging up with paper. The office manger of the grain elevator came by and tried to give me a hand full of pencils with the elevator's name on them. He commented he had \$20,000.00 dollars worth of pencils to give away.

In the next scene I was at a two-way dealer's shop. They were designing a new radio network to replace the one destroyed that was in the grain elevator. The design was very unique and had never been implemented. Later I left the area of destruction. I pick upped a microphone and was talking to someone in a loud voice. He said I was distorted. I started talking softer and he could hear me clearly. The dream ended.

This is what the Holy Spirit gave for interpretation. "The destruction represents judgments released [the grain elevator represents churches]. The

destruction was because the churches have lost contact with the head of the church [the signal lost from the satellite dish and their gas pumps would not work]. We should not jump into the destruction without seeking the Lord and his direction [removing myself from the area]. The voices I heard are the many voices in churches today crying out for the truth to be spoken.

Even after judgments and the truth of God's Word goes forth, it will be rejected [the tank truck was God's Word and the plugging of the hoses is the church stopping the flow]. In the midst of destruction the churches will continue to peddle their programs [the pencils being given away]. Even in complete destruction, the churches will attempt to rebuild what they had before without changing but will design something bigger and better than before [the new radio system]. In our service to the Lord, we do not need to get excited or talk loudly to him, but seek him in all things he wants us to do [talking in a loud voice into the microphone].”

To serve the Lord in the days of judgment, we must be born of the Spirit, live in the Spirit, walk in the Spirit, and be one with Jesus in the Spirit as Jesus was one with the Father when he walked the earth. Otherwise we will not be serving God in his perfect will.

This day June 24, 2003 The Lord said—“Even in judgments and destruction the churches won't realize why they are being judged because they think they know me, but they know Me not.”
