In this dream I was a spectator listening and watching. A tower was being constructed and standing at the base of the tower, one had a hard time seeing the top of the tower. There was a smaller tower erected beside the big tower that was part of the tools needed for the large tower construction. At the base of the tower was a large open air building with large steel frame work inside. Part of the steel frame work was used in tensioning the guy wire for the tower. In the back area of the building was an area when new communication equipment was being made ready to be used on the tower. There were several technicians from different companies setting up their equipment. Some of the equipment was identical but owned by different companies. All the equipment was new out of the box. All had the same problem that was trying to be fixed by the different technicians from their respective companies. They were each guarding their repair procedures giving others respect, instead of working together. Suddenly the tower fell to the ground like a tree being cut down. Everyone looked in shock saying this cannot be. Then I saw heavy equipment dragging the tower and backing over other business property doing much destruction to the inventory of the businesses. The dream ended.

When I woke up in the night, I asked the Lord about the dream. This is the Lord's interpretation which he finished giving in the morning as I was shaving. "The tower and the builders represent this nation and their never ending construction taking from others their property and lively hood. The technicians and the separate companies not working together represent the churches giving conditional love to each other having the same problems in this world and the same Jesus to call out to. A divided house cannot stand.

The tower coming down suddenly represents how the judgments of the Lord will come upon this nation bringing it to its knees and the people will say 'God would not do something like that'."

The Lord showed me again judgments are coming to this nation. When and how is unknown, but the warning is still being given. Our job is to be prepared and to continue to prepare daily for the day of the Lord whether in judgments or the coming of Christ. Amen.
